REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The objection to the specification is withdrawn in view of the amendments providing cross-reference to the counterpart PCT application.

The rejection under section 112, second paragraph is withdrawn in view the comments regarding the clarity of the term "produced". Moreover, claim 16 has been amended to require clarify that the dehydration and hydrogenation steps.

The rejection under section 103 is withdrawn since Becker fails to teach or suggest the requirement of providing hydrogen to the dehydration catalysts. Mahendroo and Tsuji fail to remedy the deficiencies of Becker since this reference fails to teach or suggest providing hydrogen to the dehydration catalysts. Additionally, Mahendroo fails to teach or suggest the step of adding water to a hydrogenation catalyst.

The outstanding rejection under obviousness type double patenting is withdrawn since Becker and Mahendroo fail to teach the claimed dehydration and hydrogenation steps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
